MEMORANDUM FOR: Deputy Director for Intelligence

FROM: Director of Central Intelligence

SUBJECT: McClure Letter

I talked to Jim McClure at a cocktail party which Ted Stevens gave for Tower, Kampelman and Glitman. He was, as always, quite relaxed and said he had written or participated in letters about arms control verification and violations in order to establish a record. He thinks that some of the questions will be helpful to us and he would be glad to have a visit and a briefing, but thought the process should conclude with a letter laying out our responses so that there would be a record on the exchange. If you want me to do anything with respect to the follow-through on this, let me know.
